DEDICATION OF THE NEW HOSPITAL

The Dr. Groves L. D. S. Institution Nearly Ready for Patients.

RECEPTION ON FRIDAY NICHT.

Building Will be Formally Opened to The Public on Monday Next-The Ceremonies of Yesterday.

Preceding the public reception which will be held at the L. D. S. hospital Friday evening from 7 to 10 o'clock, the building was formally dedicated yesterday afternoon, with a service that was simple, impressive and brief.

Bishop Robert T. Burton presided. At 2:30 o'clock he called the assemblage of Church officials, invited guests, and members of the medical staff of the hospital, together in the dining room. After the singing of "His Loving Kindness" by a quartet consisting of Messrs. Ashworth, Philipps, Christopherson and Squires, prayer was offered by Bishop O. F. Whitney.

A COMPLETED TRUST.

Hon. Franklin S. Richards was then introduced, and in a brief speech he told something of Dr. Groves, whose will contained the clause which called the hospital into being, and of the long effort on the part of those interested in securing its completion.

"This is to me a very eventful occasion," he said in opening. "It is the fulfilling of a trust which was imposed upon myself and J. T. Little many years ago, by Dr. Groves."

He then went on to tell how as an administrator of the will of Dr. Groves he had sought to carry out its wishes. At first the property was worth fully enough to build the entire hospital. Then in the final realization upon it a sum entirely inadequate was received.

MR. LITTLE DIED. "In 1898 Mr. Little, the other administrator, died, leaving Mr. Richards to go ahead alone with the plans. I tried many ways and many times to secure many ways and many times to secure funds with which to execute the wishes of the doctor," he continued, "but until two years ago was unsuccessful." Then the First Presidency of the Church assured me that if the work were commenced, it would be completed. This lot was purchased, an incorporation was formed with five members on the board of trustees. They were William B. Preston, president; Robert T. Burton, vice president; Orrin P. Miller, Joseph S. Richards, whom it was stipulated in the will should be medical director, during his life, and myself. John Wells was made secretary and treasur-Wells was made secretary and treasur-er, and it was provided that the general control should always be vested in the presiding Bishopric of the Church. It became the purpose of this board to erect a building which would be a cred-it to the city, and a blessing to all those who should find need of using

In speaking of the character of Dr. Groves, Mr. Richards said that he had known him for thirty years, and had always known him as a just and generous man, but little understood by the vast number of his acquaintances.

Of the conduct of the hopital he expressed the hope that it would always be governed so that every patient might feel it as much his home while he was there, as it would be possible to make

Mr. Richards concluded by thanking all who had in any way assisted in bringing the hospital to completion, for their kindly interest.

DEDICATORY PRAYER.

President Joseph F. Smith then offered the dedicatory prayer, expressive of the sentiments in which the building was surrendered to the uses for which was built. The prayer was as fol-

"Our Father who art in heaven, the Maker of the heavens and the earth and of all that in them is; the Author of our being, the Source of our intelli-gence and knowledge and understandgence and knowledge and understanding; the Giver of every good and perfect gift to the children of men while they sojourn upon the earth, may they seek Thee and find Thee and realize that Thou art, and that Thou art just and merciful and allwise, and that Thou art indeed the Maker of all things. Father, we accept of Thy name and the name of Thy beloved Son Jesus Christ, as the Redeemer of the world, the Savior of mankind in spiritual life, as also in temporal life, so far as Thy children shall hearken unto Thee and follow Thy counsel and obey the prefollow Thy counsel and obey the pre-cepts He has given to the children of men. We acknowledge, Holy Fath-er, that He was the great healer of af-filetions and sufferings among the chilflictions and sufferings among the children of men while He sojourned in the flesh, and by the power and might of God, and by the power of endless truth. He did heal the sick, restore sight to the blind, hearing to the deaf, speech to the dumb, and did cleanse the lepers and cast out the evil influences that possessed the hearts of the children of men and did many mighty and divisions. men, and did many mighty and glorious works among the children of men for their guidance, and comfort and alle-viation of their sufferings and misfortunes and calamities. Now we ask Thee. Holy Father, that those of us who shall be connected with this house and its operations may ever acknowledge in our hearts and our souls Thy divine mission, its almighty power and wisdom and our allegiance unto Thee, and we ask Thee, Holy Father, that Thou wilt now look down upon us as the Giver of all good and that Thou wilt be in our hearts and guide us with Thy influence while we ask for the

"We thank Thee that Thou hast permitted means to be put into our hands for the purpose of creeting this edifice, that Thou didst put it into the heart of thy servant, Dr. Groves, to found this institution and that Thou didst bless his thoughts and his dedication and his desires to the end which we see in this building, finished and complete for the building, finished and complete for the purpose of carrying out his wish and his will. And now, Father, inasmuch as this structure has been erected for the purpose of taking in those who are slek, those who are lame and crippled, injured, hurt, afflicted in their bodies, or mentally, that they may be treated and assisted to recover health and life, that far as they shall be given unto in as far as they shall be given unto the services of those who have made a study of medicine and surgery and of the physical structure and organism and powers of mankind, that they may and powers of mankind, that they may administer according to the skill and power Thou hast given them, as well as by inspiration from the Almighty, that they may be successful in their labors and efforts among the affilted who shall come here for help. We pray Holy Father, that thou wilt bless the medical traff of this labors and efforts are successful in the said will have a side of this labors and will have a side of this labors and will have a side of this labors and will have a side of this labors are successful to the said the said will have a side of this labors. staff of this institution and all those who shall be connected with them.

Sanctify their efforts and bless them to alleviate the sufferings of the help-less, that they may be instrumental in Thy hands in accomplishing great good and benefit unto those who shall be afflicted and who shall seek their help. And wilt Thou put it into the hearts of Thy servants, the medical staff, to look unto the Lord, the Giver of every good and perfect gift, and make them to realize their imperfections, that man in himself is weak and shortsighted, and that Thou only art the source of al knowledge and canst inspire men to do knowledge and canst inspire men to do the right thing at the right moment, and to lift them up in intelligence and guide them with inspiration that they may understand and perceive, whether they acknowledge it as inspiration or not. And will Thou impress them to do that which will be for the best good of those for whom they labor, and wilt thou bless and inspire all the men who shall be employed here and the women, who shall act as nurses, each in their separate duties, that they may live strictly in accordance with the highest principles of intelligence and of wisdom and proper judgment. We ask Thee, Holy Father, that inasmuch as this is intended to be a hospital, a place of refuge, and a place of rest for the afflicted, that all who enter here shall be impressed with peace and con-tentment, no matter from whence they come; and we ask, O God for Thy clessing. Thy Holy Spirit, and Thy healing influence to rest upon all the afflicted who shall be brought here for help in their distress. May Thy peace be in their hearts that they may be strengthened and encouraged to pass through every ordeal that they may be required to pass through to recover

their health and their lives.
"Now, Father, we ask also that the time may never come when the name of God shall not be revered within these walls. May Thy name be held sacred upon the lips and in the hearts of the men and women who shall minister here. May the peace of this ref-uge never be marred by any feeling, or evil influence or improper conduct or work or deed of any kind. "Witt Thou hear us in our petitions

and bless us and cause that perfect lib-erty may be exercised to administer unto those who shall be brought here in their afflictions and who shall sire Thy blessings, and that faith be exercised in their behalf, that no light word shall be uttered against those who enter this house and perform that sac red duty, that this right and this priv lege may be extended unto all who shal desire it and that Thy Priesthood shal be honored within these walls.

"Now we ask Thee, Heavenly Father, that Thou wilt look down upon us in mercy, and as we have done this work with an eye single to the comfort and happiness and welfare of the afflicted, that Thou wilt accept of our desires and sanctify them and bless them, to the enlences and the privileges and bless

for that purpose.
"We ask Thee to accept of the grounds upon which this house stands; bless it and sanctify it and make it acceptable unto Thee. Bless the build-ing from the foundation to the top of it, and all its apartments and all the material of which it is composed, tha it may be strong and durable and firm in all its parts, that the walls may be lid and secure and every part safand preserved from the tempests and violent storms and from the ragings of violent storms and from the ragings of the elements, from fire and from lightning and from the quak-ings of the earth, and from all other causes of disturbance. We ask Thee, Father, that by Thy almighty power, this building may be preserved and per-mitted to stand on its foundations to fulfill and accomplish the end and obfulfill and accomplish the end and ob-ject of its being; we ask this in the name of Jesus Christ. Bless those who have given and contributed of their means to this institution, that they may not lose their reward, and that peace and Thy blessings may rest upon them for the good they have in their hearts and that the good work they have done in preparing this building for the object it is to accomplish may bring "We ask Thee now to accept of this

President Smith was followed by Bishop R. T. Burton, in a few remarks relative to the policy to be pursued by the new hospital. He said that it must always be governed with the greafest regard for the welfare of the patients, that temperance, competence, and kindthat temperance, competence, and kind-ness must be possessed by all em-ployes, and that incompetence and ill feeling would not be tolerated in the

FRIDAY NIGHT'S OPENING. In concluding, he announced that Friday evening the building would be open to all who might wish to look through it, from 7 until 10 o'clock in the even-

The service of dedication was con-cluded with a prayer by Patrlarch John Smith, after which the larger portion of those present availed themselves of the opportunity to look over the building.

SPLENDID EQUIPMENT. Interest centered chiefly in the operating rooms on the fourth floor, which were said by the members of the medical profession present to exceed in perfectness of equipment anything they had heard of in the United States or in the world. It was apparent throughout the critical publisher that the expressions had the entire building that no expense had been spared where the expenditure of money could secure the best results. The walls of the operating rooms as well as the floors are in white tiling, and adjoining them are sterilizing rooms. The tables and basins of the room are in plate glass.

A thing that excited great interest was the X-ray machine in which many of the visitors glanced at the hores of

of the visitors glanced at the bones of their hands and wrists. their names and wrists.

After the reception Friday evening, the building will remain closed till the fellowing Monday, when it will open for the reception of patients.

of health. LECTURE LAST NIGHT. Dr. Hubert M. Skinner lectured last vening in Farratt Hall on "The Negevening in Farratt Hall on "The Neglected Cycle." In his remarks the speaker traced the various tales of mythology originated through the fall of Troy, these being but a prejude to the cycle of King Arthur, which, however, time would not permit to be given. These tales, said the doctor, should be told not as history, but for the lessons to be learned from them.

LECTURE TONIGHT. Tonight in the Tabernacie Dr. Skinner will give what is believed to be his favorite lecture, dealing with the subject, "The English Language." In addition to the lecture there will be musical numbers of the Tabernacle represents this great result is due.

choir, the whole making up an interesting program. The public is invited, there being no charge for admission.

DEPARTMENT WORK. Department work yesterday afternoon was highly interesting. In the kindergarten section inspiring talks were made by Miss Lenore Morris and Miss Mary C. May, while Miss Emily E. Rossburg discussed kindergarten games, and methods and devices for interesting the Miss of the Control of the Miss of the eresting the little folks.

AT THE UNIVERSITY. At the University of Utah there was the subject, a spirited discussion of the subject, "Nature and Her Influence on the Child," in which many of those present participated. Miss Etta Powers, principal of the Lincoin school, Salt Lake, discussed the theme, "School Gardens," after which "Agriculture as an Educational Possibility," was treated by Principal A. S. Martin of the Grant school, this city, who told what could be done by way of interesting the child in the seed and its fruits, its child in the seed and its fruits, its planting and care. A discussion on subjects relating to nature study was led by John H. Weich, director of nature study at the state normal school. THE HIGH SCHOOL.

The high school and college section was presided over by Prof. Milton Bendion of the University of Utah. The subject, "Government and Discipline in the High School," was discussed by Principal George A. Eaton of the Salt Lake High school. Principal Eaton was very strongly opposed to the idea was very strongly opposed to the lear being advanced that students should be allowed to govern themselves. Op-posing him in this view were Profes-sors Porter, Decker and Driggs of the Branch Normal university. These edu-cators contended that the students should be given a charter specifying that they are given government, over that they are given government over themselves. Dr. E. G. Gowans, in his paper on "Physical Education in Col-leges and Secondary Schools." said that he had found many deformities of Utah he had found many determities of than university students which might have been prevented if they had had gymnasium training during early school life. Prof. William Langton of Logan was not present, but Prof. John T. Miller, in general discussion, said that the reason why he was opposed to present day otheries was that the big fellows, who thietics was that the big fellows, who to not need the development, are in the cotball teams, while the men who need physical training are watching them

IN THE PARENTS' SECTION. In the parents' section, Prof. William M. Stewart and Dr. E. G. Gowans discussed subjects pertaining to the physical and mental welfare of the child, their talks being highly appreciated. In addition, Mrs. Nellie Druce-Pugsley addition, Mrs. Nellie Druce-Pugsley sang "Ave Marie," in her usual artistic

COPPER BELT TO BE TRANSFERED.

President William Bayly of the Copper Belt road arrives tomorrow from Los Angeles, when it is understood the formal transfer of the road to the Rio Grande will occur. The clerical force has completed an inventory of all the property owned by the company.

While the Copper Belt is only seven miles in length and, in fact, covers but three miles of territory it is a splendid traffic proposition. At present the road is hauling close on to 1,000 tons of ore day to the smelters from the U. S. Highland Boy, Yampa and Newhouse properties. Even at the low rate that has been given the road has been a paying proposition from the first. When the D. & R. G. gets hold of it it will be a splendid revenue earner.

The road, which was built by J. G. Jacobs, is one of the dizzlest engineering feats in the country. From the time it leaves Bingham a 7½ per cent grade is negotiated while some of the urves encountered run as sharp as 40 per cent.

Traveling Agent Arrives.

B. D. and W. A. Beardsley arrived its morning from Spokane and accordingly General Agent Walker of the Chicago & Northwestern feels that the Chicago & Northwestern feels that the office is up to its old fighting strength again. The new traveling agent for the Northwestern is well known in Salt Lake, where he was stationed some time before being sent to Spokane. Mr. Beardsley has been busy since his arrival shaking hands with big old time friends. his old time friends.

Receiver for New Orleans R. R.

Trenton, N. J., Jan. 5 .- E. C. Foster of New Orleans has been appointed re-ceiver for the New Orleans Railway company by Judge Lanning in the United States circuit court. The ap-pointment of Mr. Foster as receiver on the grounds of the insolvency of the company was made on Saturday last, and he was again appointed received esterday on foreclosure proceedings rought by the New York Security & Trust company, trustees for holders of bonds amounting to \$14,228,000. The company defaulted in the payment of interest amounting to \$400,000 on Jan. 3. The trust company is also the com-plainant in the suit which resulted in the appointment of Foster as receiver ast Saturday. The appointment of a receiver was made with the consent of the company, its answer to the bill of complaint admitting all the averments.

AN OBJECT LESSON.

E. F. Blake Travels via Salt Lake Route

And Saves 12 Hours. Edward F. Blake, a civil engineer, has demonst: 'ed that even with the Salt Lake Route not completed and slow running over the new track that slow running over the new track that it is possible to go to Los Angeles via the San Pedro road and give the Southern Pacific 12 hours handleap. Mr. Blake, who arrived in Salt Lake last night, recently made the trip as a passenger. At the end of the line he took a wagon drive to the other terminus and came on by train. He arrived in Salt Lake a day ahead of Southern Pacific schedule. This gives some idea of what the new line will mean for Salt Lake when it is completed and down to good running order.

good running order. SPIKE AND RAIL.
